Demographic Profile

Highlights

**Population Growth:** Population in San Rafael increased by 3% over the past ten years to 58,000, a slower growth rate than the statewide rate of 10%. The greatest increase occurred in the Hispanic population (4,000), while the white, non-Hispanic population declined (-3,000).

**Diversity:** San Rafael remains majority white, non-Hispanic, although this group’s share of the population declined from 66% to 59% of total over the past decade. The Hispanic share of the population increased from 23% to 30%.

**Age Structure:** San Rafael is older than California overall with a median age of 40, compared with 35 for the state. The share of the population age 65+ is 16% of the total, compared with 11% statewide.

**Households:** Single-person households are common here—33% percent of all households consist of individuals living alone, compared with 23% statewide.

**Education:** The population is highly educated, with 47% of adults having attained a Bachelor’s degree or higher, compared with 30% of the state population. Fifteen percent of the population has less than a high school degree, compared with 20% statewide.

**Income:** Median household income in San Rafael is $71,000, 18% higher than the statewide median income.

**Foreign Born:** The foreign-born population accounts for 27% of the total, which is the same as statewide. In San Rafael, 31% of foreign-born individuals are from parts of Latin America, excluding Mexico, compared with just 11% statewide.

This demographic profile is part of a series of library jurisdiction profiles prepared for the California State Library by the Stanford Center on Longevity. The project, "Understanding California's Shifting Demographics," was supported in whole by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
